

# OPPORTUNITY TO CONSERVE WATER

Save the environment and your bills

## CHECK AREAS FOR LEAKS

Common areas for leaks includes around the toilet, around the shower, and under the sink.

## TURN OFF WATER

Turn off the water when brushing teeth or shaving.

## COLLECT RAINFALL WATER

Consider using rainfall water to water your plants and other needs.

## TAKE SHORTER SHOWERS

An average shower uses 5 to 10 gallons of water. Consider turning off water to soap up and then rinse off.

# 6 WAYS TO KEEP WATERSHED CLEAN AND HEALTHY

## CONSERVE WATER

Reduce usage of water when not necessary.

## AVOID POURING TOXIC CHEMICALS DOWN THE DRAIN

Don't pour toxic chemicals down the drain. Consider taking them to your nearest hazardous waste center.

## PICK UP WASTE AFTER PETS

Remember always pick up waste after your pets. Dispose of waste in the toilet.

## DRIVE LESS

Save the environment and the watershed by driving less. Consider an alternate way of transportation by walking or biking.

## PLANT HARDY PLANTS

Plant hardy plants that don't require watering or fertilizer.

## RECYCLE YARD WASTE

Recycle your yard waste into a compost pile for a cleaner and better environment.
